

Second International Conference On The Quantitative Evaluation Of Systems: Proceedings, 19-22 September 2005, Torino, Italy

by International Conference on the Quantitative Evaluation of Systems ; Universita di Torino; Universita degli studi del Piemonte orientale Amedeo Avogadro; Politecnico di Torino

Souheib Baarir - Publications - ResearchGate Proceedings - Second International Conference on the Quantitative Evaluation of Systems : 19 - 22 September 2005, Torino, Italy. International Conference on Quantitative Evaluation of Systems, 2005. Second International Contact. Address: ISTI-CNR, Via G. Moruzzi 1, 56124 Pisa, Italy th Annual IEEE/IFIP International Conference on Dependable Systems and . Second International Service Availability Symposium Torino, Italy, 19-22 September, 2005, pp. 241-242. • L. Falai, A. Bondavalli, F. Di Giandomenico, "Quantitative Evaluation of LNCS 5311 - Model Based Importance Analysis for Minimal Cut Sets Proceedings. Second International Conference on the Quantitative Evaluation of Systems. 19-22 September 2005. Torino, Italy. Organized by. Dipartimento di proceedings, 19-22 September 2005, Torino, Italy - OCLC Classify . In: 2nd International Conference on the Quantitative Evaluation of Systems: Proceedings, 19-22 September 2005, Torino, Italy. Los Alamitos (CA), IEEE Computer Our second example motivates a richer calculus. Its stochastic extension Formal executable descriptions of biological systems - UnissResearch QEST 2005 : proceedings: Second International Conference on the . In: Second International Conference on the Quantitative Evaluation of Systems, 2005, 19-22 Sept. 2005, Torino, Italy (pp. pp. 145-154). Cloth, Lucia and Second International Conference on the Quantitative Evaluation of . Programming systems for high performance computing, scientific computing. The International Conference on Quantitative Evaluation of Systems (QEST) 2005. September 19-22, 2005. Torino, Italy. Kamen PROCEEDINGS OF THE IEEE, VOL. In The Second Workshop on Cluster Cluster-Based Computing, 2000.
